WINTER, SPRING & SUMMER ADVENTURES – Ages 6 - 10

Winter Adventures Feb 20-24 8:30 AM – 3:30 PM Mon-Fri
 (Ages 6 - 11) Members: \$64/day or \$270/full week Non-members: \$72/day or \$295/full week

Super Senses: Our five senses – sight, smell, sound, taste & touch – tell us what we need to know about the world around us. Animals need this information and more to hunt, navigate and survive in ever-changing environments, but they get it in some pretty wild ways! Seeing with their ears, tasting with feet, smelling with tongues – talk about some super powers!

Sight – Monday, 02/20	
Smell - Tuesday, 02/21	
Sound - Wednesday, 02/22	
Taste - Thursday, 02/23	
Touch - Friday, 02/24	
All 5 days of Winter Adventures:	

Spring Adventures Apr 17-21 8:30 AM – 3:30 PM Mon-Fri
 (Ages 6-11) Members: \$270 Non-members: \$295

Spring Adventures:

It's All Connected: The wild life isn't always easy, especially when it comes to finding food, growing up and staying safe. Every day animals struggle to get by, but some have found a creative tool to help them survive: each other! Some animals form close relationships with other species, some live in big family groups and some rely on specific species for food – but, however they do it, they don't do it alone! For the animals we'll spend this week with, it's all connected.

Summer Adventures 8:30 AM – 3:30 PM Mon-Fri
 (Ages 6-10) Members: \$270 Non-members: \$295

of Summer Adventures Weeks:

If I Worked in a Zoo: A lifetime of doing what you love and loving what you do can begin with a small step. If you know a child who dreams of working with animals or in a zoo, then that small step is here! It takes a village to run a zoo, and this week we'll take a sneak peek into the secret life of zookeepers, zoo veterinary care, exhibit building, enrichment, research and so much more! **Please note: Due to USDA and AZA regulations, this program will not include behind-the-scenes components*

Magizoology: Humans have always been fascinated with the fantastical. From ancient stories of sea monsters and Minotaurs to the Hippogriffs and Acromantulas of the Wizarding World, we just can't get enough of these magical beasts. So, where did the inspiration for these animals come from? Did any of them ever exist in real life? We'll answer these questions and more as we examine the mythical creatures that live where magic and science meet.

Please number your first, second and third choice of sessions. There is a **maximum of one week per theme.**

CONSERVATION HEROES – Ages 11-13

Conservation Heroes 8:30 AM – 3:30 PM Mon-Fri
 (Ages 11-13) Members: \$270 Non-members: \$295

The Cultural Climate (Change): It's a brave new world, where our news comes in headlines, our messages need just the right filter and we're all giving and getting likes on our journey to go viral. How can wildlife, resource and environmental conservation messages evolve to reach this new audience? This week we'll examine the connection between conservation & pop culture and explore new ways to get the message out – in 144 words or less.

Beyond the Panda: Simon Watt said it hilariously but wisely: “we can't all be pandas”. If there's one thing we're learning, it's that everything on this earth is connected in some way and each creature has their important role to play – so why does it seem that some animals get more than their share of the conservation spotlight? This week we'll explore the ins and outs of animal conservation campaigns and work to showcase the inner beauty of all animals in need.

Please number your first, second and third choice of sessions. There is a **maximum of one week per theme.**
