

There are many different kinds of living things and they live in different places. Today you are going to observe some animals that live in a rainforest habitat.

1. Watch the following videos of 4 different rainforest animals from Roger Williams Park Zoo. Watch the video by clicking on the name of the animal under the picture.

[Two-Toed Sloth](#)

[Golden Lion Tamarin](#)

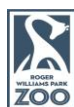

[Elegant Crested Tinamou](#)

[Southern Tamandua](#)

2. After you watch the videos, pick your favorite video and use it to fill out the Scientist Observation form on the next page.
